

Reality Complication Table

Roll d20 at end of each turn during Step 4: Rescue and Restore

Roll	Complication
1-2	Gravity Shift: Gravity reverses for one character. They must make a STR save or fall upward, taking 1d6 bludgeoning damage.
3-4	Time Loop: Make a WIS save. On a failure, time resets to the beginning of your turn and you must repeat your turn; you, and only you, retain full knowledge of what happened before the time loop.
5-6	Spatial Tear: A reality tear opens near a random character. STR save or take 1d8 force damage and be pushed 10 feet.
7-8	Magical Feedback: The stabilization device pulses with energy. All characters within 15 feet make a CON save or lose concentration on spells.
9-10	Flumph Swarm: 1d4 additional flumphs phase into existence from the broken reality.
11-12	Reality Echo: A random character's shadow acts independently. The shadow makes a melee attack against its owner (1d4 psychic damage).
13-14	Color Drain: Magical colors drain from the area. All characters make a WIS save or have disadvantage on their next ability check.
15-16	Dimensional Overlap: Two characters swap positions. Randomly select two characters and swap their locations.
17-18	Magical Static: Spellcasting becomes unstable. Next spell cast has a 50% chance to fizzle or target a random creature instead.
19-20	Reality Stabilizes: The broken reality briefly aligns. All characters gain an additional action which must be used on their next turn.
